What is Softaculous ?

- ✔ Softaculous is an auto installer for 380+ apps like WordPress, Joomla, Drupal, Magento, etc. Installing and Managing applications can be a hassle when running a website. Softaculous makes this process convenient and extremely easy.
- ✔ Softaculous has features like Auto Upgrade, Cloning, Staging, Remote Import, Backups, Restore and more which helps you in maintaining your apps with ease.
- ✔ Softaculous also comes directly integrated within cPanel on all our shared hosting plans, allowing you to manage your entire application within a central interface.

Use your Shared Hosting to securely host your custom applications and websites, emails, as well as popular web applications such as Wordpress, Magento, Joomla, Prestashop, Drupal etc...
